## PROFILE

A results-driven Software Developer with a strong background in building scalable web and mobile applications. Proficient in Node.js, React, Next.js, Tailwind CSS, and Expo/React Native, delivering seamless user experiences through clean, responsive design. Skilled at translating complex requirements into efficient, high-performance solutions. Committed to continuous learning, innovation, and delivering impactful software aligned with business goals.

## EMPLOYMENT HISTORY

May 2025 — Present

Frontend Engineer, MAP Systems Inc

- Developed and maintained real-time communication features including group calls, personal calls, broadcasts, and chat using React, TypeScript, Socket.io, and MediaSoup
- Built reusable UI components and implemented features like emoji reactions, speaking detection, and threaded messages
- Handled session management, participant states, and live event syncing for smooth user experiences
- Identified and fixed critical bugs, optimized frontend performance, and ensured application stability under real-time load
- Collaborated with the team to align frontend logic with backend socket events and deliver consistent, high-quality UX

Feb 2025 — Present

Frontend Engineer, I-Tech Platform Limited

- Build and maintain responsive web and mobile applications using React.js and React Native.
- Collaborate with designers and backend developers to create seamless user experiences and optimize performance.

Sep 2023 — Jan 2025

Frontend developer, Freelance

- Delivered custom frontend solutions for various clients, building responsive websites and web applications using React.js, Next.js and React Native
- Collaborated with clients to understand project requirements, providing regular updates and incorporating feedback to meet client expectations.
- Optimized web applications for performance, ensuring fast load times and seamless user experiences across different devices and browsers.

Feb 2023 — Sep 2023

Information Technology Intern, National Social Investment Programme Agency (NSIPA)

- Provided technical support, troubleshooting network issues, and setting up operating systems.
- Assisted with printing, scanning, and general IT-related tasks to improve office efficiency.

Oct 2022 — Mar 2023

Frontend Developer, Freelance | Contract

- Contributed to the development of *Couch Team*, working alongside a team to design and implement user-friendly interfaces.
- Collaborated with UX designers to improve platform usability and enhance user experience.
- Assisted in optimizing the performance of the platform for seamless functionality.
